Combien de jetons y a-t-il dans la boîte ?

Attention regarde les flèches !!!

Combien Léo a mis de jetons dans la boîte ?

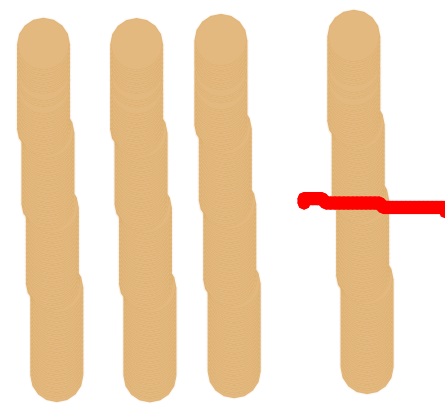

Combien Léa a enlevé de jetons dans la boîte ?

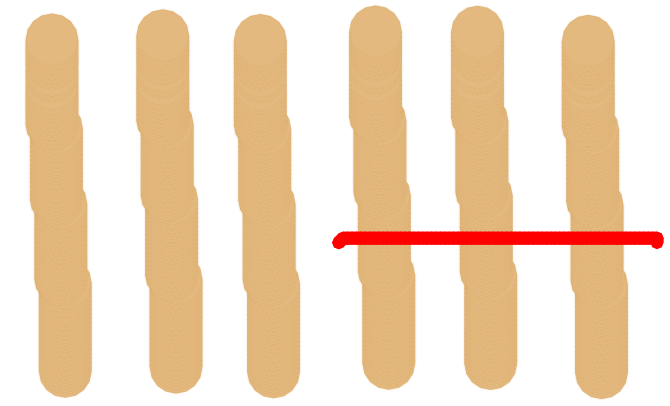

J'ai 5 dizaines  
j'en enlève 2 ,il  
reste 3 dizaines

$$50 - 20 = 30$$

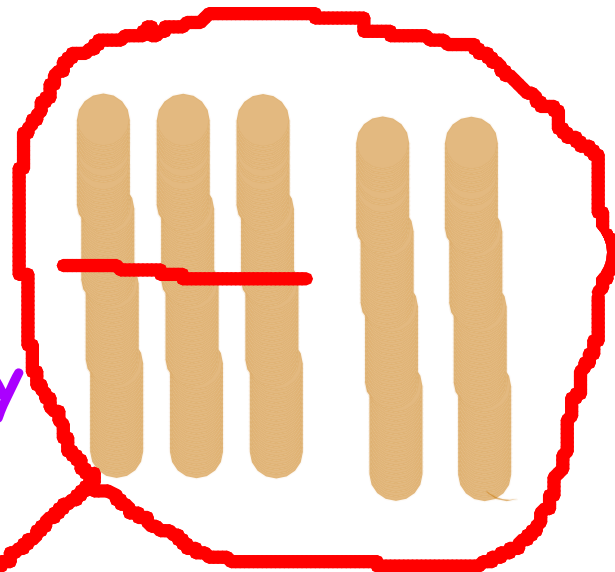

$$40 - 10 = 30$$

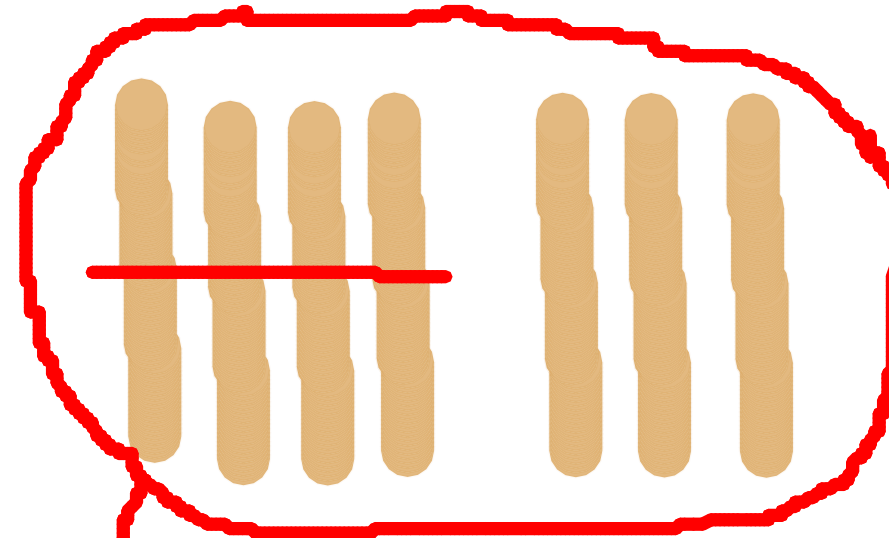

$$60 - 30 = 30$$

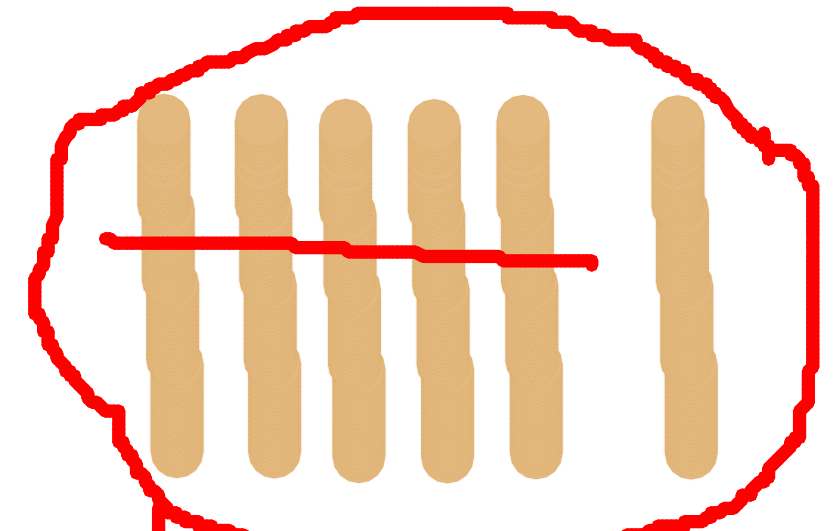

J'ai 3 dizaines  
enlevées et 2  
dizaines qui  
restent donc il y  
en avait 5 au  
départ

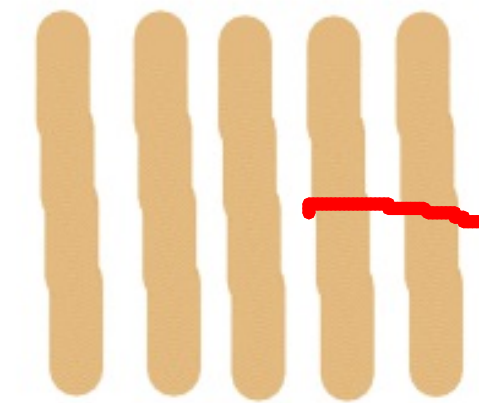

$$50 - 30 = 20$$

$$70 - 40 = 30$$

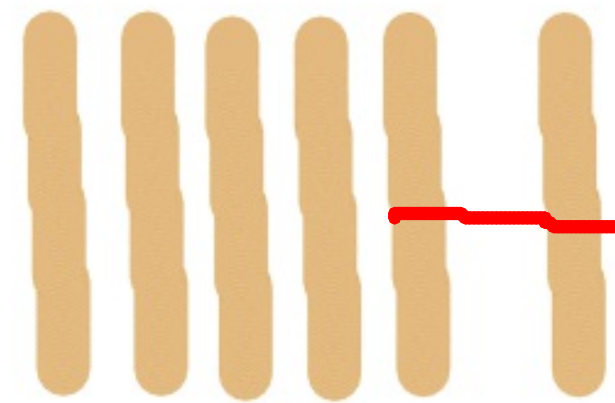

$$60 - 50 = 10$$

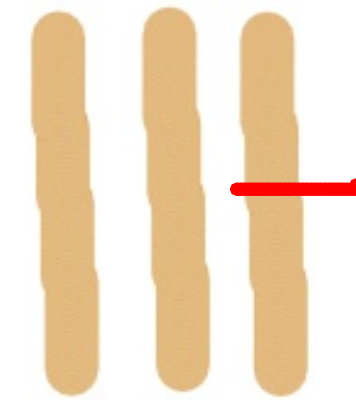

J'ai 5 dizaines  
je dois enlever 2  
dizaines pour  
qu'il en reste 3

$$50 - 20 = 30$$

$$60 - 20 = 40$$

$$30 - 10 = 20$$
